

## Environmental Policy Statement

At Donarbon Ltd our main businesses are recycling and waste management and transportation. We are committed to processing, recycling and supplying a wide range of waste management and transportation services that are high quality, and professional.

In recognising that our work in these areas will impact the environment, we are committed to avoiding and reducing this impact wherever possible, through:

- Ensuring an ongoing level of management that is appropriate to the nature and scale of environmental impacts of our activities, products and services;
- Continual improvement of environmental management systems and prevention of pollution;
- Complying with relevant environmental legislation, and with other requirements to which the Company subscribe;
- Providing the framework for setting and reviewing environmental objectives and targets, based on thorough assessments of environmental aspects and impacts;
- Ensuring that the policy is documented, implemented, maintained and regularly reviewed;
- Communicating the policy to all employees; provide appropriate training and encourage their involvement and suggestions.
- Making the policy available to customers and the public.
- Making best use of resources by maximising recycling and resource recovery through sustainable waste management practices.
- Efficient use of energy, water and material in all company activities.
- Contribute to the protection and enhancement of the natural environment to aid site biodiversity where practicable.
